

A little more about me!

Photography has been a lifelong passion for me. Now after almost 10 years as a professional, I have covered over 300 weddings, making me one of the most experienced wedding photographers in the area.

I pride myself on my friendly laid back and professional approach which puts couples at ease, and helps them feel sure that they've made the right decision to trust me with capturing their big day.

Need anything else? Just ask!

Do you travel?

Yes, I travel right across the UK as well as internationally to capture weddings.

My standard pricing is for weddings within 1 hour of where I'm based in Matlock,

extra charges for expenses may apply for destination weddings

How much is the deposit?

I take a £300 deposit to secure a booking. Once this is paid, your price and package are fixed

Do you have PAT testing, public liability and indemnity insurance?
Yes of course, I am fully covered and am happy to send all of my documents across to your venue if required

How long until we get to see our wedding photographs? Even at the busiest times of the year, my turn around time is a speedy 3 weeks or less so you can share your pictures as soon as possible after the big day!

What happens if it rains?

Part of having plenty of experience means I can think outside the box when we need to resort to 'Plan B' if it rains. Some of my best photographs have been when it's raining. I've got plenty of tricks up my sleeve if we get less than perfect weather for your big day

Do you use a drone for aerial photography?
Yes, this is great for adding something a little different to your photographs!
I use a drone to get an aerial shot of your venue (wherever possible) and also occasionally use it for couple shots if we get the right kind of light
